

*“Oh, for a muse of fire that
would ascend The brightest
heaven of invention!”*

Here at Townley we view education as a creative process. Our vision is to lead a learning community fostering academic, emotional and physical confidence. In doing this we create inspirational learners who have the courage to take risks and the wisdom to learn from their mistakes.

An education at Townley Grammar School is a privilege but also a great responsibility. Ultimately we are judged not just by our qualifications but by our qualities. Together with first class academic qualifications students at Townley become responsible citizens with a social conscience, able to lead others and act as change agents for a better society.

Everyone should have the opportunity to be extraordinary and through our bold and inspiring curriculum we enable our students to let their dreams power their futures.

By fuelling the imagination of our students we light a fire that will burn bright throughout their lives.

Desmond Deehan – Headteacher
Townley Grammar School for Girls

*“This above all:
to thine own self be true.”*

At the heart of the Townley experience is a focus on each girl as an individual. Our students are reflective and resourceful with a passion for learning.

Our reputation is built on the dignity, responsibility and self esteem of all members of our community. As mature, confident, articulate and caring individuals, Townley students enter the world prepared for its challenges and equipped to seize its opportunities.

We put students first, invest in our staff and nurture our communities. In return we expect an open mind, a desire to be challenged and a respect for learning, each other and our environment.

Res

Confidence.

Courage.

Compassion.

Integrity.

Resilience.

Spirit.

Social conscience.

$$2 \cdot 10^3$$

“Thought is free.”

We work tirelessly to inspire and challenge our students through providing outstanding teaching, rich opportunities for learning, and encouragement and support for each student.

We take pride in excellent and imaginative lessons, using creative techniques to make lessons come alive.

Students enjoy a well resourced environment which combines academic rigour with modern technology. Specialised teaching ensures outstanding results and secures our students places in the universities of their choice.

A wide range of curriculum and enrichment opportunities are available blending traditional and modern interests.

Townley has been truly inspirational to me, and to say thank you I endeavour to pass that inspiration on and encourage anyone lucky enough to secure a place to have the confidence to never stop trying to pursue their dreams...

Deputy Head Girl.

“All the world’s a stage.”

We are a selective school with specialisms in Performing and Visual Arts together with Maths and Computing. This is an exciting and rewarding combination. It enables us to use the power of creativity and performance to support our students in their emotional development and creative potential and to support those who mentor and teach students in the use of inspiring and highly effective techniques.

These specialisms drive improved outcomes for our students by providing them with access to the latest learning technology and practice, a rich programme of activities and a culture of creativity.

Through the Arts there are opportunities to perform in Dance, Drama and Music or express themselves through Visual Media. The Music Technology Suite and the Recording Studio provide access to the latest technology while a modern professional theatre, photography facilities and dance studio give students the opportunity to explore and develop their creative potential.

Mathematics uses a thematic approach with the opportunity for students to use their creativity to experience how mathematics is used in various professions such as health, journalism and the police force. Students have the opportunity to use technology to record their own documentaries exploring Mathematics and as a Microsoft Academy we are able to offer industry standard qualifications in addition to GCSE and A levels. Extension and support are offered at all levels, including workshops on codebreaking, Mathematics competitions and careers advice.

*“Be not afraid of greatness:
born great, some achieve
some have greatness thrust*

We excel at what we do, not just occasionally but as standard. At Townley we have strong values and high expectations. Townley is an inclusive community where the educational progress, personal development and well-being of every student is paramount.

Our achievements and those of our students do not happen by chance, but by highly reflective, carefully planned and implemented strategies. However, we are constantly looking for ways to improve further.

We balance good order and discipline with the motivational power of praise and celebration. We take every opportunity to celebrate our students' achievements whether through exhibitions, performances, concerts or awards ceremonies.

Townley students get so many chances to jump in the deep end and experience some amazing things. Grab it tightly with both hands, feel resilient and await the feeling of accomplishment that stays with you forever.

Year 13 student

*some are
greatness, and
upon 'em."*

TG

*“We know what we are,
but know not what we may be.”*

The adventure your daughter embarks upon when she joins Townley will be an exciting and a challenging one. We work in close liaison with parents to ensure we are partners in the journey.

Each stage in secondary school brings its own challenges and so form tutors and Learning Managers specialise in specific year groups and manage the transition to a new phase. Change is an inevitable and essential part of life so we invest time in preparing your daughter to manage change.

Learning Managers track individual student progress and target support where necessary. Assistant Learning Managers are non teaching members of staff available to support your daughter on a day to day basis and liaise with you. We believe in open, transparent and swift communication. You receive a formal report each term whether by a full written report, a shorter interim or a one to one consultation with your daughter's teachers. Our parent gateway supports this by providing you with live information about your daughter such as reports, attendance and her timetable on a secure internet link.

Our extensive range of enrichment activities means your daughter will be able to explore her potential, make new friends and grow into an accomplished young adult. In the process she will enjoy all that today has to offer while preparing for an exciting tomorrow.

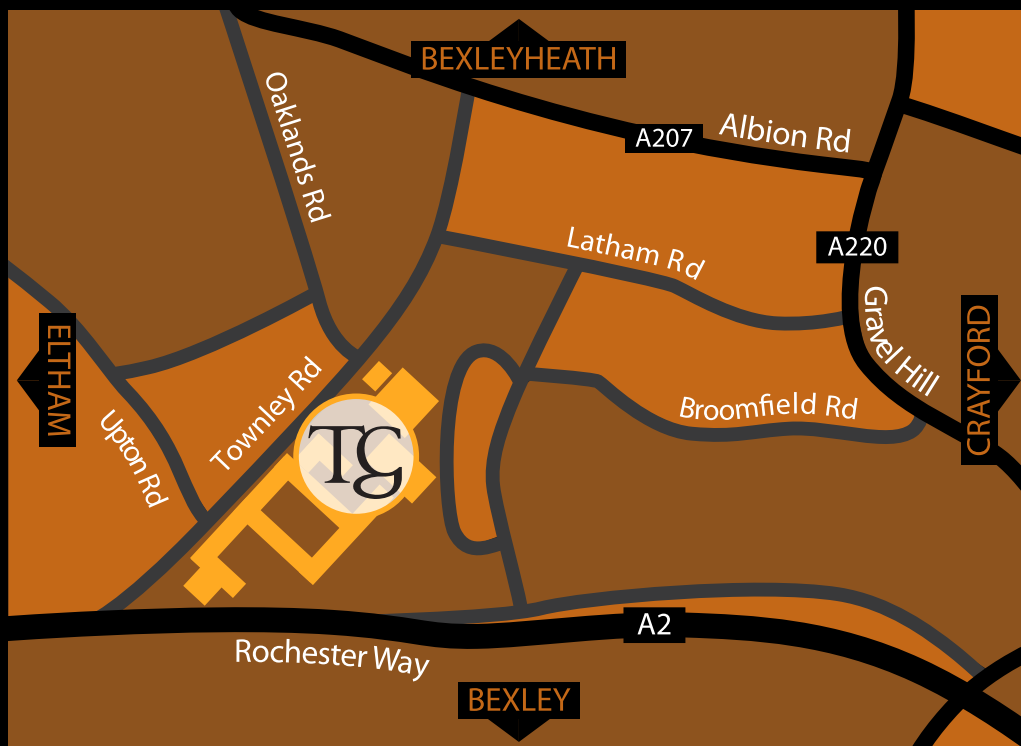

"I enjoy being a part of the Symphony Orchestra, and the facilities Townley offer for musicians and those involved with the performing arts are fantastic. We are also encouraged to take part in charity work on both a local and international level, which I do through our active Amnesty International group."

"The sense of community between students at Townley is something that is of great use to new pupils, and the form prefect system ensures that new students are looked after and settle in easily."

"My interests lie with science and I hope to study medicine in the future, but the range of extracurricular activities offered at Townley has allowed me to pursue numerous other hobbies as well."

"At Townley there is a wealth of opportunities to visit other countries and take part in exchanges. These are some of the most wonderful experiences you could have because they really build your confidence and encourage you to jump into the world."
